

By choosing Marked and Bundled Cable, you are able to:

- Customize the wire for each specific project.
- Consolidate multiple reels into one, facilitating an easier pull.
- Eliminate the cost of scrapping excess wire created by using numerous standard length reels.

Straight Assembly (Standard Configuration)

Wire Type: THHN / XHHW / USE / CAT Cables / FPLP, FPLR / PV / LSZH / and more upon request!

Sometimes referred to as a "Spiral Wrap," our Straight Assembly is an efficient solution to any cable run. With custom striping, marking, and bundling, you can get what you need from Point A to Point B without a hassle. And because each project is different, we are able to tailor our wire to suit your needs.

- Can be up to 2.5" in diameter.
- Conductors are marked with any Alpha-numeric combination at spacing intervals of 1-6 inches in either white or black ink.
- Conductors can be striped.
- Sequential footage marker available upon request
- No minimum run quantities.
- Conductors come from one manufacturer guaranteed.

Each bundle consists of conductors from a single manufacturer, ensuring that from the purchasing to the pulling, MB Cable can guarantee you the right product for your job.
